Automatic Dairy Caser

Pak Tek Mass Flow Caser

The Pak Tek Mass Flow Packer gives you innovatively simple, efficient clean design, along with stainless steel construction that is guaranteed to optimize your dairy cushion casing.

The cushioned lower section design and multi-layer capability - including staggered patterns - of Pak Tek Cushion Casers are distinguishing features proven to increase your production and profits.

Pak Tek PLC-controlled Mass Flow Casers offer you the flexibility to change between a full array of container sizes, from 1/2 pint containers to gallon containers, in a matter of minutes. You can extend your versatility with a number of options including a vacuum head for various container sizes. Whether you choose the standard machine or full options, you'll get the advantage of Pak Tek durability and reliability.

Optional Features

- Case or corrugate operation
- Vacuum head for various container sizes
- Multiple layers
