

Continuous Motion Cartoner Servo Beverage Packer

Key Features

- Servo driven packer eliminates mechanical drive for enhanced performance and uptime
- Barrel cam loader for precise product loading
- Starwheel infeed for handling cans, PET bottles and glass bottles (other infeeds available)
- Speeds up to 2200 cans per minute
- Handles a variety of sizes (from 8 packs to 24 packs) including 2 x 6 - 12 refrigerator pack
- Electronic changeover on the infeed to develop different pack patterns

Continuous Motion Cartoner

Servo Beverage Packer

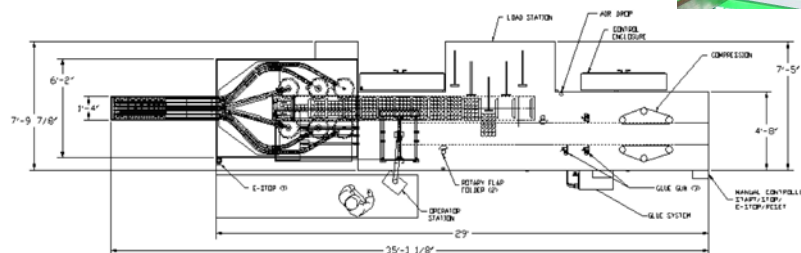

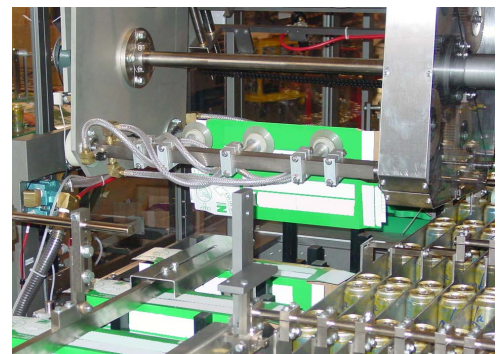

The Thiele Servo Beverage Packer (TSBP) is the latest Thiele Technologies design that incorporates state-of-the-art servos and HMI interfacing. This rugged designed beverage packer has the flexibility of handling various products and pack patterns for the constantly changing beverage industry.

With Thiele's product infeed design, product is oriented into the pack pattern without damage to the product. Specially engineered carton set-up efficiently erects and places even the most difficult carton styles including the 2x6 refrigerator pack.

Available Features

- Infeeds available to run bottles or cans utilizing servo starwheels and conveyors
- 4 ft powered carton magazine standard; 8 ft magazine available optionally
- 4-head rotary, gear driven carton set-up
- Nordson ProBlue 10 glue system
- Servo dust flap tuckers, stainless plows and controlled stop glue compression
- Allen-Bradley Logix Series PLC with Panelview Plus color touch screen
- High volume vacuum system
- Air filter regulator
- Servo dust flap tuckers, stainless plows and controlled stop glue compression

Specifications	
Speed	
Variable up to 180 cartons per minute depending upon pack pattern; 2160 cans/min.	
Machine Pitch	12" pitch
Carton Size Range	
Length	5" to 10½"
Width	½" to 4"
Depth	4½" to 12"
Drive	Mult-axis servo
Installation Requirements	
Power	One drop (480 V)
Air	One drop 60-80 PSI
