

## Automatic Floor Level Dairy Depalletizer Ratchet & Chain Depalletizers

### Standard Features

- Hydraulic Operation
- PLC Controlled
- Fully Automatic
- Painted Mild Steel Construction
- On-Floor Operation (Ratchet-Type Only)
- Above-Floor Operation (Chain-Type Only)
- Overhead Stack Stabilizer
- In-Line Pallet Magazine
- Empty/Full Pallet Unload/Load with Fork Truck or Pallet Jack (Ratchet-Type)
- Empty/Full Pallet Unload/Load with Fork Truck (Chain-Type)

# Barry-Wehmler

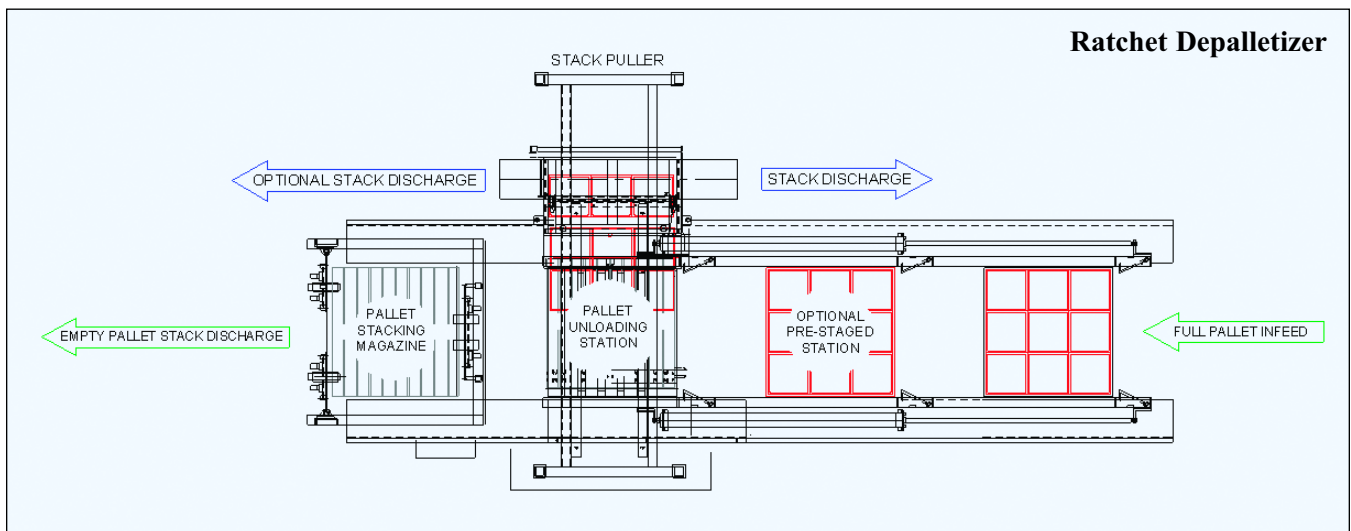

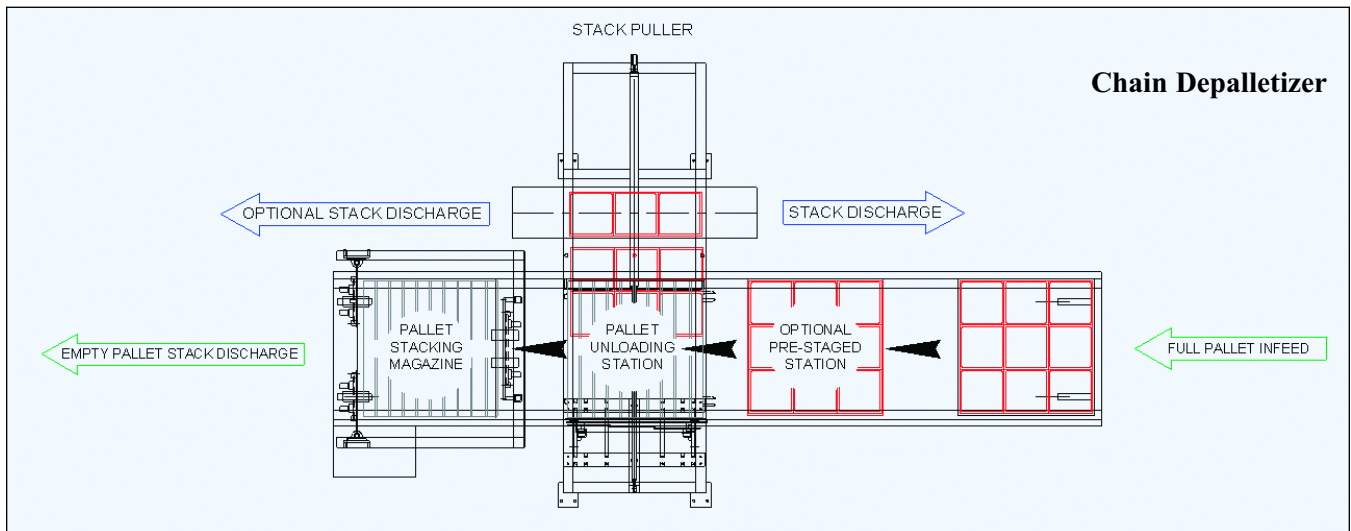

# Automatic Floor Level Dairy Depalletizer Ratchet & Chain Depalletizers

The Ratchet and Chain Depalletizers operate on a simultaneous cycle for optimal speeds. On floor ratchets or above-floor chains retrieve full pallets and forward them to the unloading station. Full case stacks are fed off of the pallet, on to the conveyor. The ratchets or chains move the empty pallet to an optional pallet stacking magazine.

## Available Options Include:

- Stainless Steel Construction
- Accommodates Multiple Pallet Sizes

Specifications	
<b>PRODUCTION SPEED</b>	
1 pallet/min	
<b>ELECTRICAL REQUIREMENTS</b>	
Control Power	120 volts, 1 phase, 60 hertz
Control Circuit	120 VAC
Electrical Service	200 amp supply line
<b>HYDRAULIC REQUIREMENTS</b>	
Operating Pressure	800 psi
Consumption	22 GPM
